

Contract Intelligence

Lightweight Contract Management Built on Trusted Digital Identities

Create trusted agreements in minutes.

Connect contracts to verified identities, capture legally binding signatures, and maintain a complete audit trail—all within Realm ID.

Store

Easily find and manage contract documents.

Trust

Link every agreement to verified identities.

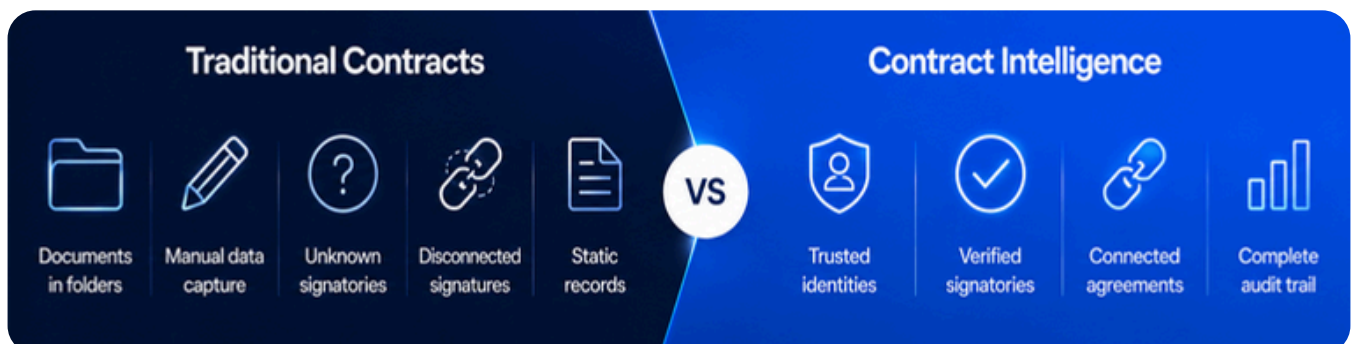

Sign

Execute with RealSign with a complete audit trail.

Why Contract Intelligence?

Instead of managing documents, Realm ID manages **trusted business relationships**.

Contract Intelligence

Everything you need to create, sign and manage trusted agreements.

Core Capabilities

Contract Repository

Store and manage essential contracting documents and information.

- Contract title
- Contract type
- Description
- Start and end dates
- Status
- Contract value
- Currency

Identity-Driven Contracts

Automatically link information from Realm.

- Company details
- Registration numbers
- Verified identities
- Contact information

No duplicate data capture.

Integrated with RealSign

Every contract can be executed using RealSign.

Includes:

- Electronic signatures
- Consent capture
- Signature history
- Linked transaction records

Complete Audit Trail

Every important event is recorded.

- Contract created
- Signature requested
- Signature completed
- Contract completed
- All linked to:**
 - Contract
 - Identity
 - Timestamp

Contract Alerts

Never miss an important contract milestone.

- Expiry reminders
- Renewal alerts
- Signature reminders
- Key contract milestones

API Ready

Designed to integrate with your ecosystem.

- ERP systems
- CRM platforms
- Document Management Systems
- Workflow platforms
- Existing applications
